DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to the amended claims have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 3 – 10 and 22 – 35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1. Regarding claim 1, this claim is directed to a method for controlling a gap in an electrically conducting solid state structure. However, the method does not recite any steps specifically involving the indicated solid state structure. It is unclear as to what structure in the claimed method constitutes the solid state structure. For example, does the solid state structure constitute the recited membrane?
2. Regarding claim 10, this claim recites the incorporation of an additional membrane that is an electrically insulating membrane. The relationship or position of this additional membrane with the originally recited membrane is unclear. It is unclear if the membrane recited in claim 10 is an additional membrane or a recitation further defining the original membrane previously recited in claims 1 and 9. Furthermore, the relationship or position of the electrically insulating membrane with the electrically conducting solid state structure is unclear.

3. Claim 8 recites the limitation "the structure" in line 2. There is insufficient antecedent basis for this limitation in the claim.
4. Claim 25 recites the limitation "the structure" in line 2. There is insufficient antecedent basis for this limitation in the claim.
5. Claim 28 recites the limitation "the structure" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
